

"LIGHTHOUSE MODEL"
TRANSITION FROM ATSC 1.0 TO
ATSC 3.0
IN SAN FRANCISCO

"Meeting Notes"

SUMMARY

The FCC has mandated that all existing ATSC 1.0 television channels that wish to upgrade to ATSC 3.0 are required to run both the existing ATSC 1.0 and new corresponding ATSC 3.0 channels until July 17, 2027. The cost-effective scheme to run both channels simultaneously is called "Lighthouse Model" transition.

FCC'S SIMULCAST MANDATE

NET RESULTS

- The 5 most powerful TV channels in San Francisco now "simulcast" in both the "NextGen" ATSC 3.0 and the legacy ATSC 1.0 formats
- The "Lighthouse" station called KRON-TV simulcasts main 4.1 subchannel, while its other subchannels of 4.2, 4.3, 4.4, and 4.5 are now transmitted from the legacy ATSC 1.0 stations
