SUMMARY

Here are my instructions for installing T-Mobile's "Nokia" gateway for their "T-MOBILE INTERNET Internet" service.

TOPICS

- T-Mobile's "5G Home Internet" Gateways
- Using the "T-Mobile Internet" app

T-MOBILE'S GATEWAYS

According to

<https://www.t-mobile.com/support/home-internet.html>

T-Mobile is now using one of four models of gateways:

Welcome to T-Mobile Internet | T x +

More Support Topics

- T-Mobile Internet app
- Gateway setup
 - Sagemcom Fast 5688W Gateway
 - Arcadyan KVD21 Gateway
 - Nokia 5G21 Gateway
 - Askey LTE Wi-Fi Gateway
- T-Mobile ID & billing
- Connect to T-Mobile Internet
- Troubleshooting
- T-Mobile Internet Lite
- 15-Day Internet Test Drive

Welcome to T-Mobile Internet Support

Our high-speed internet is designed to be reliable, easy to set up, and effortless to maintain. Find setup instructions, helpful videos and troubleshooting guides below.

Need help with your gateway order? [Check and track my order >](#)

Set up your T-Mobile Internet

Get set up in just 15 minutes. You'll be ready to connect with these simple steps.

Sagemcom Fast 5688W Gateway

Arcadyan KVD21 Gateway

Nokia 5G21 Gateway

Askey LTE Wi-Fi Gateway

NOTE

The USB-C and RJ-11 voice ports currently are not functional.

T-MOBILE'S GATEWAYS (continued)

If you order T-Mobile's "5G Home Internet", you will not find out which model you get until it arrives at your home or business.

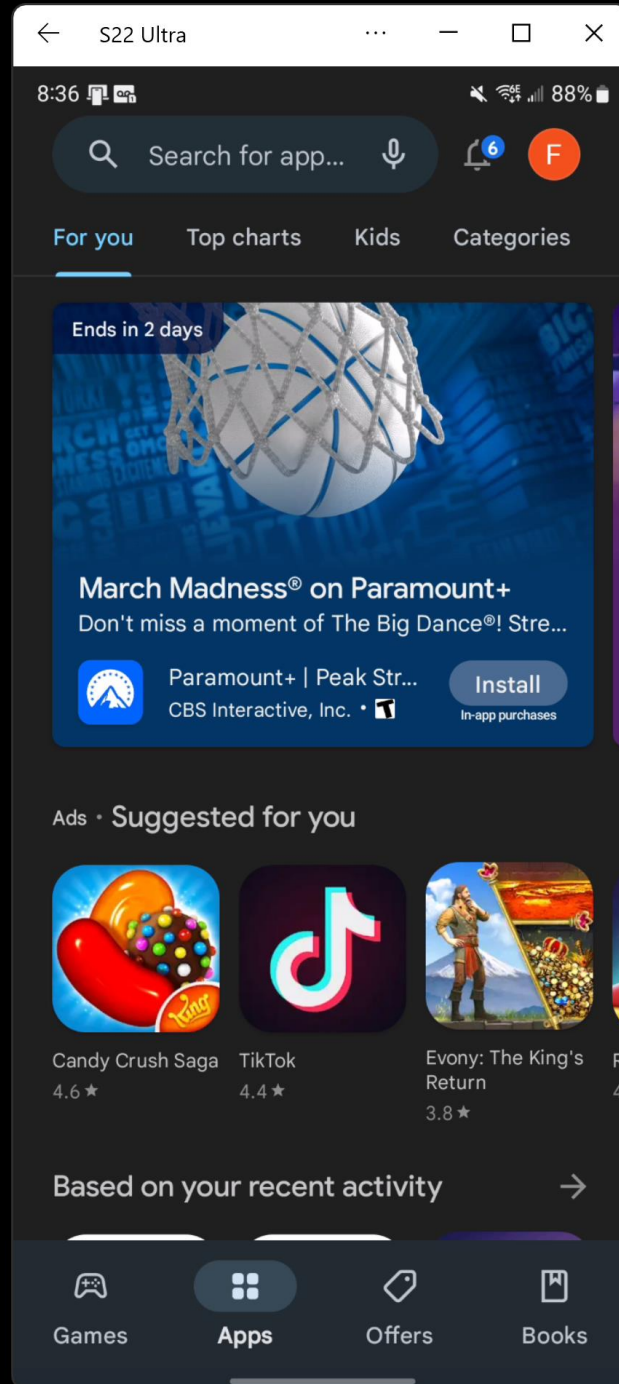

USING THE "T-MOBILE INTERNET" APP

- Go to the "Play Store" in an Android phone or to the "App Store" in an Apple iPhone:

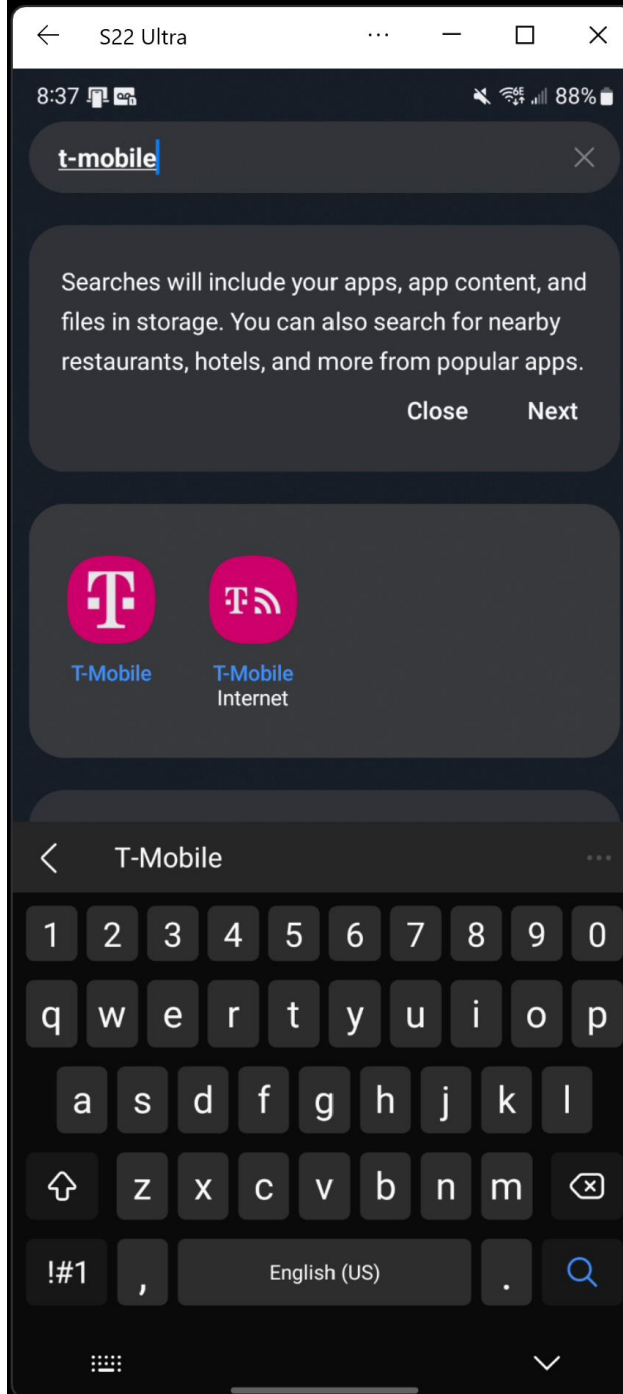

USING THE "T-MOBILE INTERNET" APP (continued)

- Get into the Search function of the store:

USING THE "T-MOBILE INTERNET" APP (continued)

- Search for
T-Mobile

USING THE "T-MOBILE

INTERNET" APP (continued)

- You will need to install both the "T-Mobile" app and the "T-Mobile Internet" app:
The "T-Mobile" app is for billing and the "T-Mobile Internet" app is for managing the gateway device:

USING THE "T-MOBILE INTERNET" APP (continued)

- Tap on "Settings":

USING THE "T-MOBILE INTERNET" APP (continued)

- Tap on "Connections":

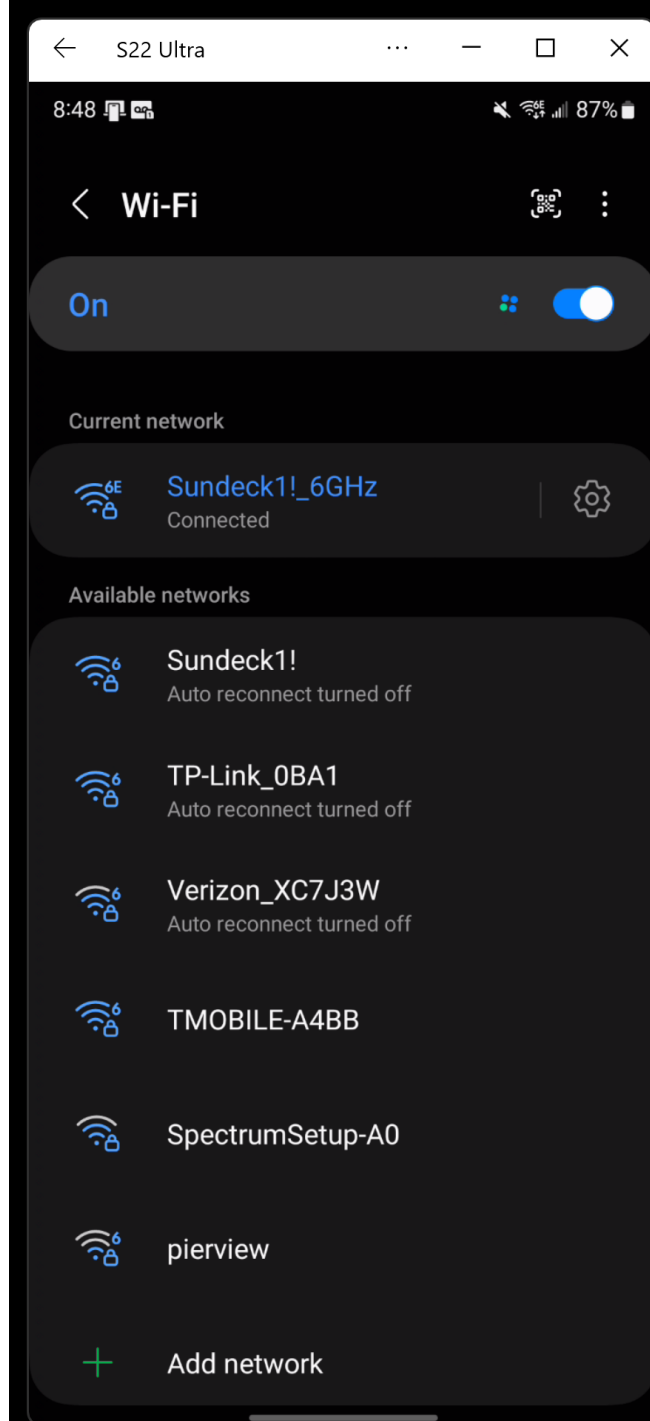

USING THE "T-MOBILE INTERNET" APP (continued)

- If "Wi-Fi" is not connected to the "Service Set Identifier" of the T-Mobile gateway, tap on the "Service Set Identifier" that the cell phone is currently attached to:

USING THE "T-MOBILE INTERNET" APP (continued)

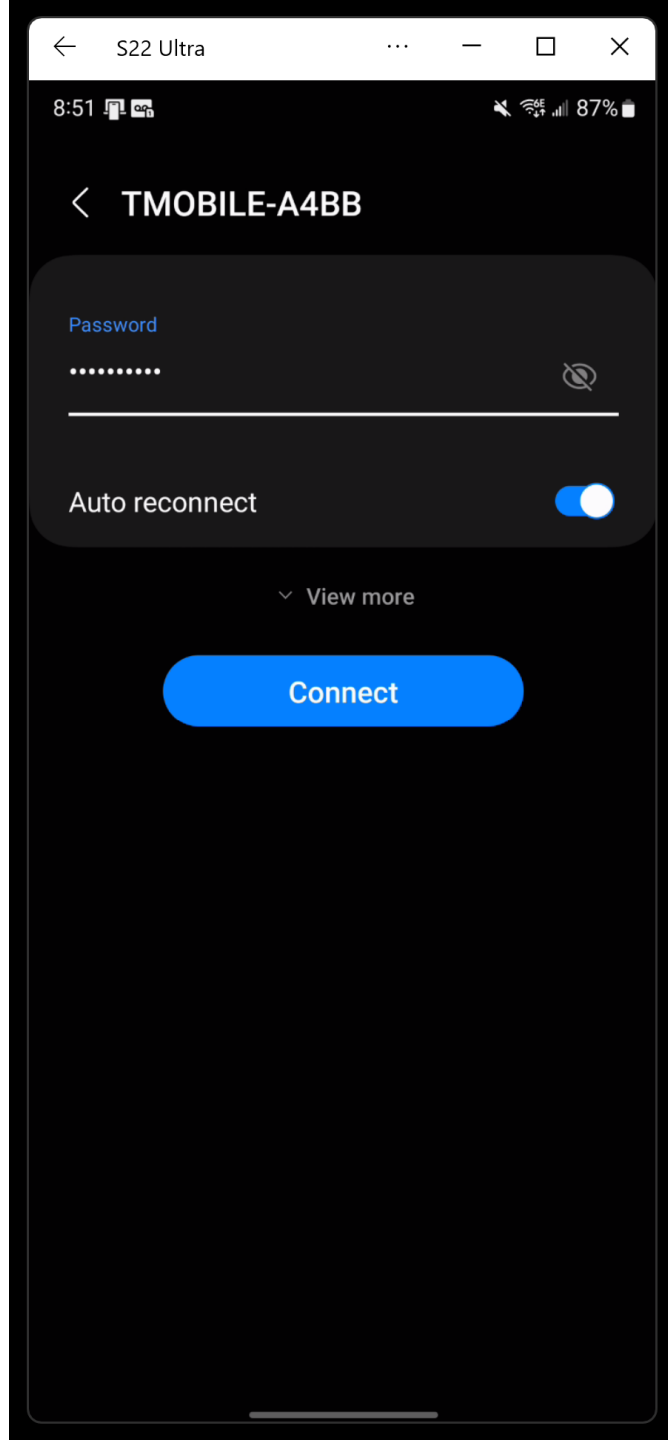

- If "Wi-Fi" is not connected to the "Service Set Identifier" of the T-Mobile gateway, tap on the "Service Set Identifier" of the T-Mobile gateway:

USING THE "T-MOBILE INTERNET" APP (continued)

- Enter the password for the SSID of the T-Mobile gateway (the password is on the label at the bottom of the T-Mobile gateway).
Then tap on "Connect":

S22 Ultra

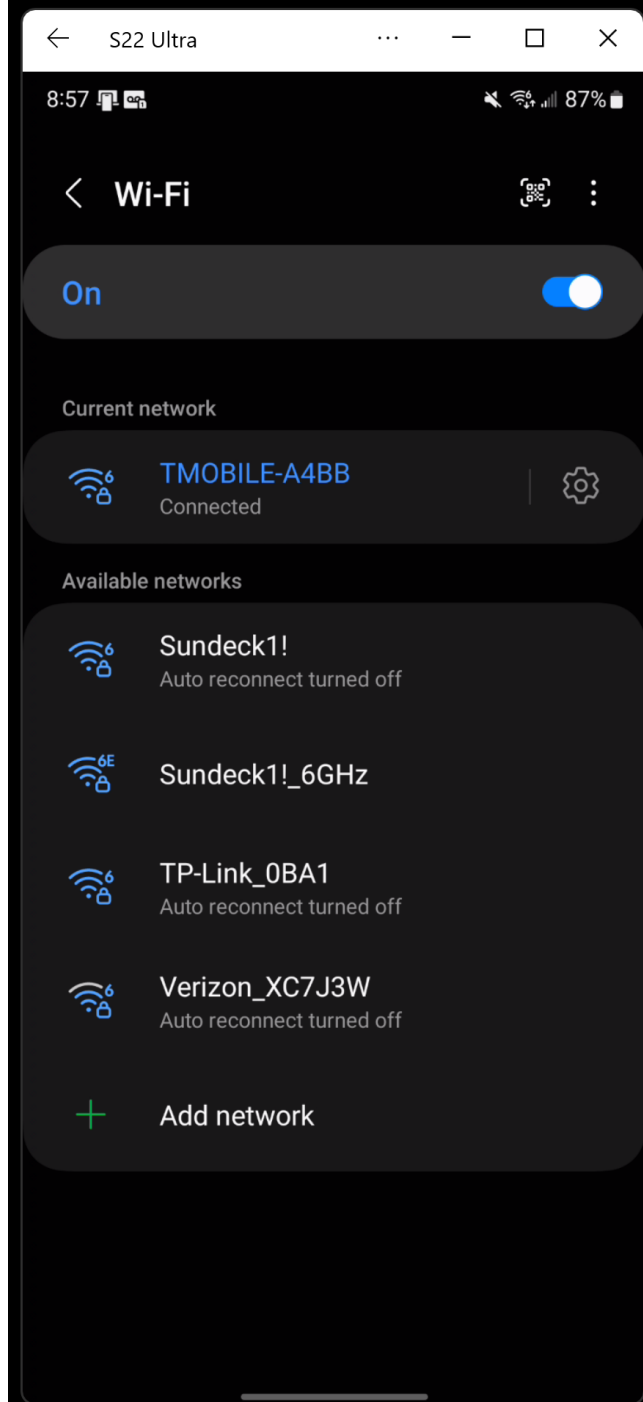

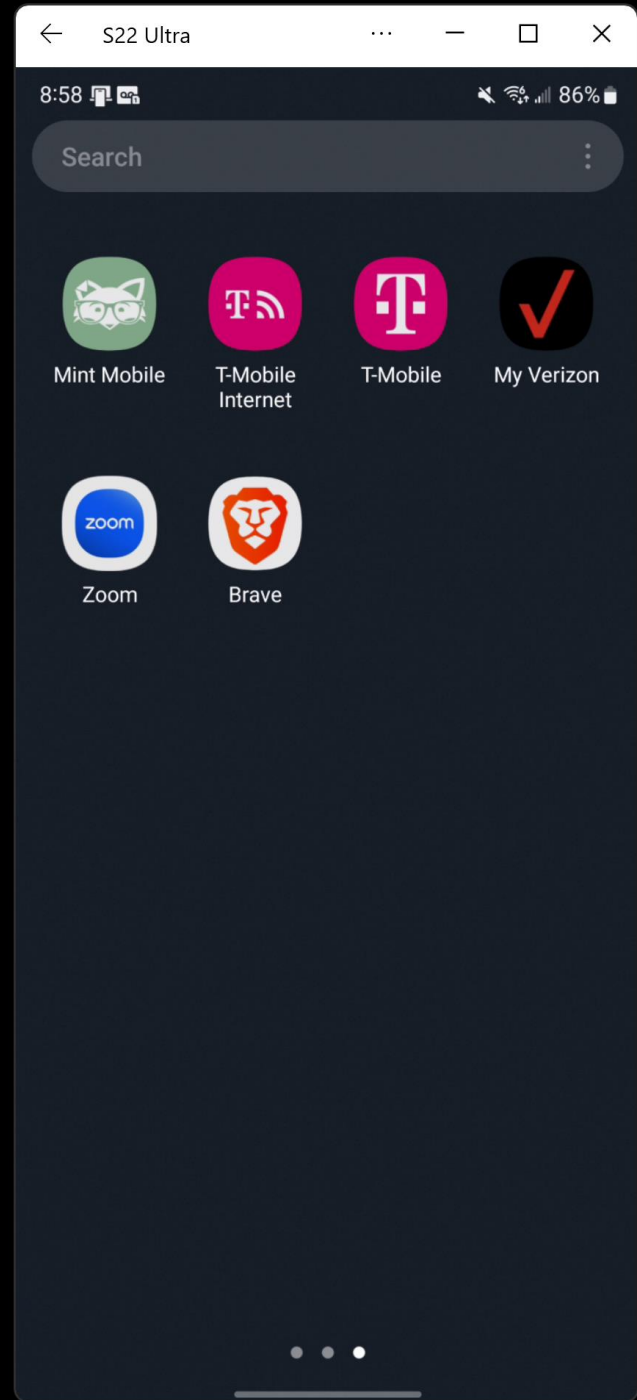

Trying to reconnect...

USING THE "T-MOBILE INTERNET" APP (continued)

- The Service Set Identifier of the T-Mobile gateway should now be listed as "Connected":

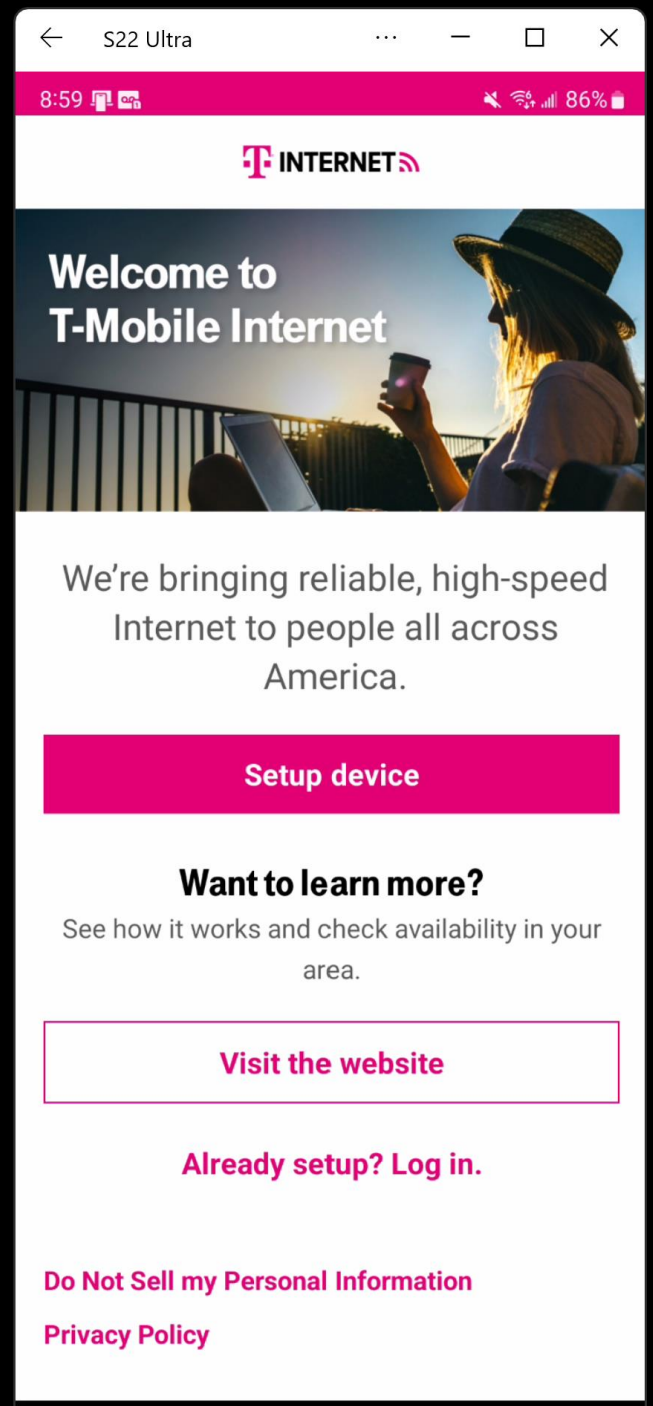

USING THE "T-MOBILE INTERNET" APP (continued)

- Tap on "T-Mobile Internet":

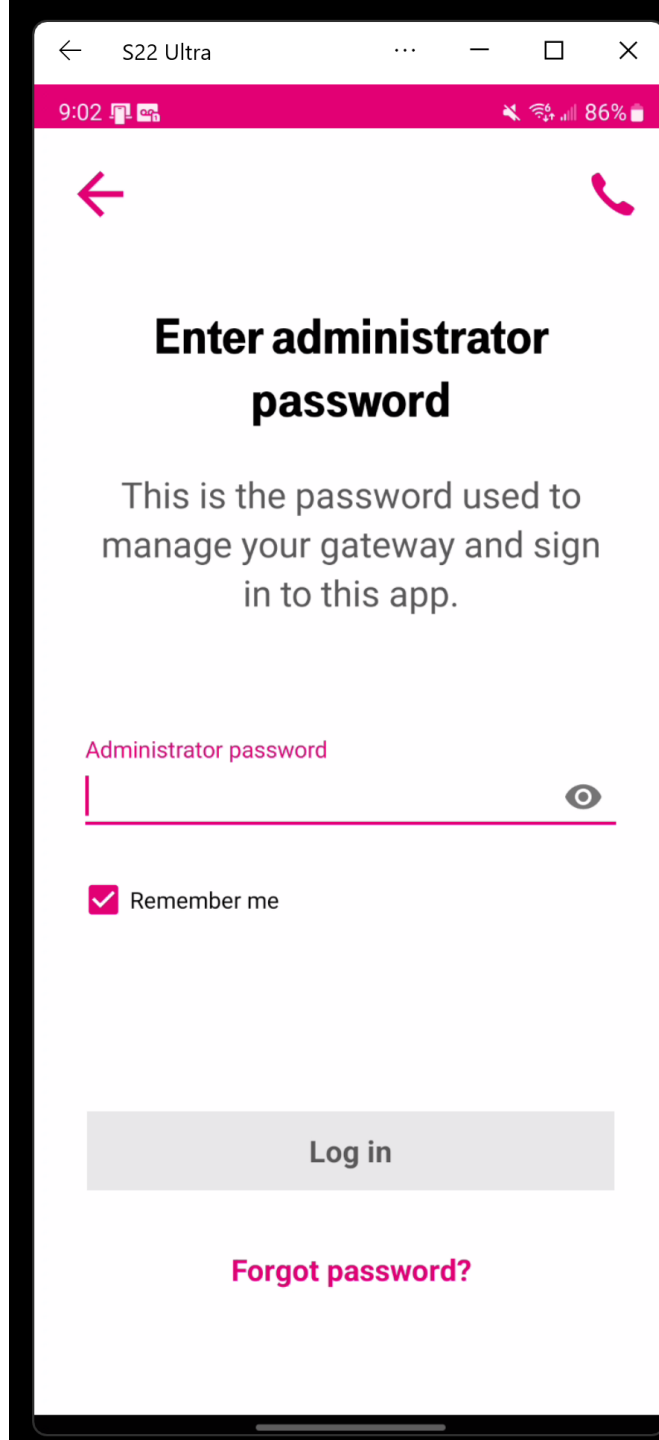

USING THE "T-MOBILE INTERNET" APP (continued)

- Tap on "Log in":

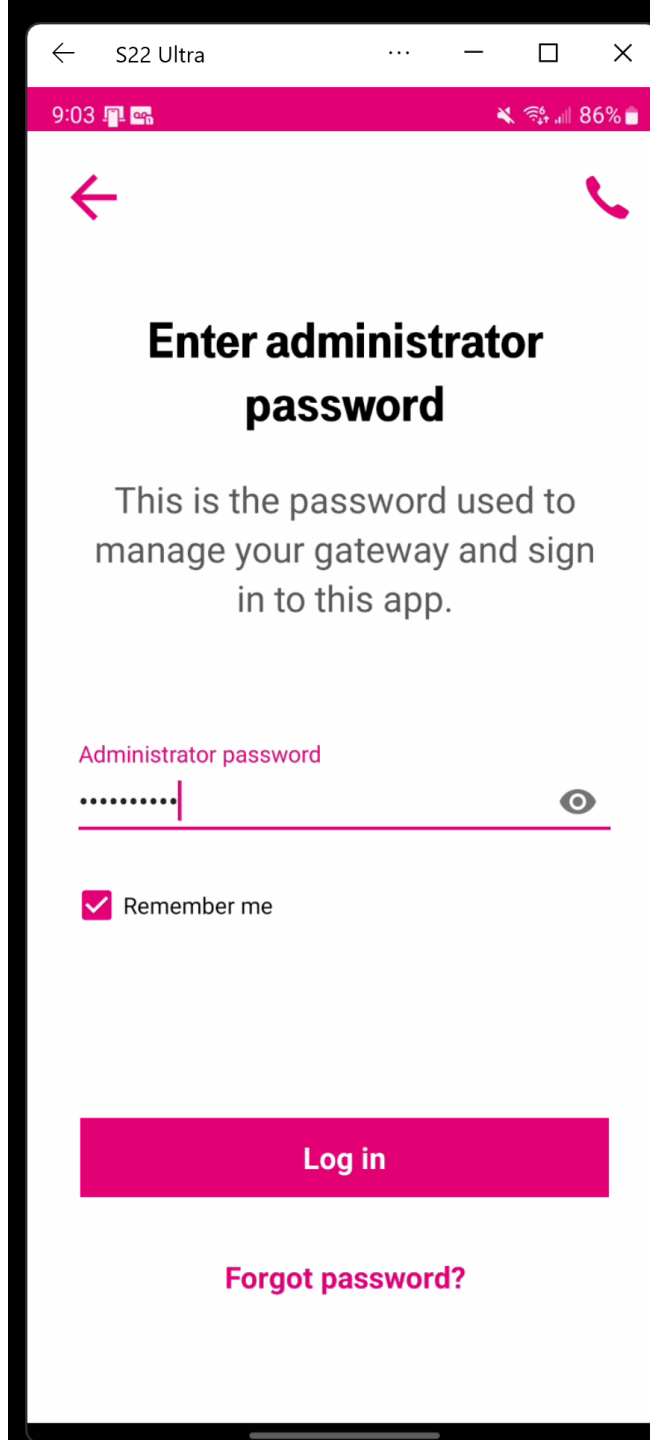

USING THE "T-MOBILE INTERNET" APP (continued)

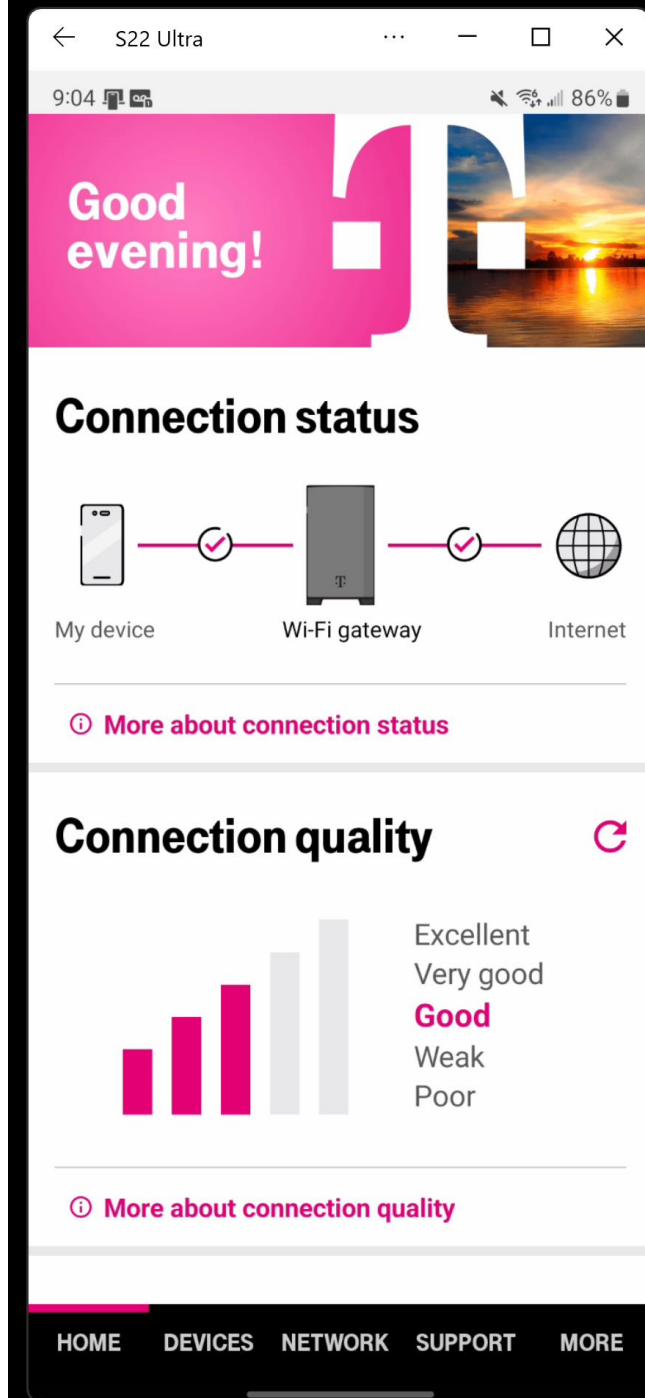

- Type in the password. (It is on the label at the bottom of the T-Mobile gateway):

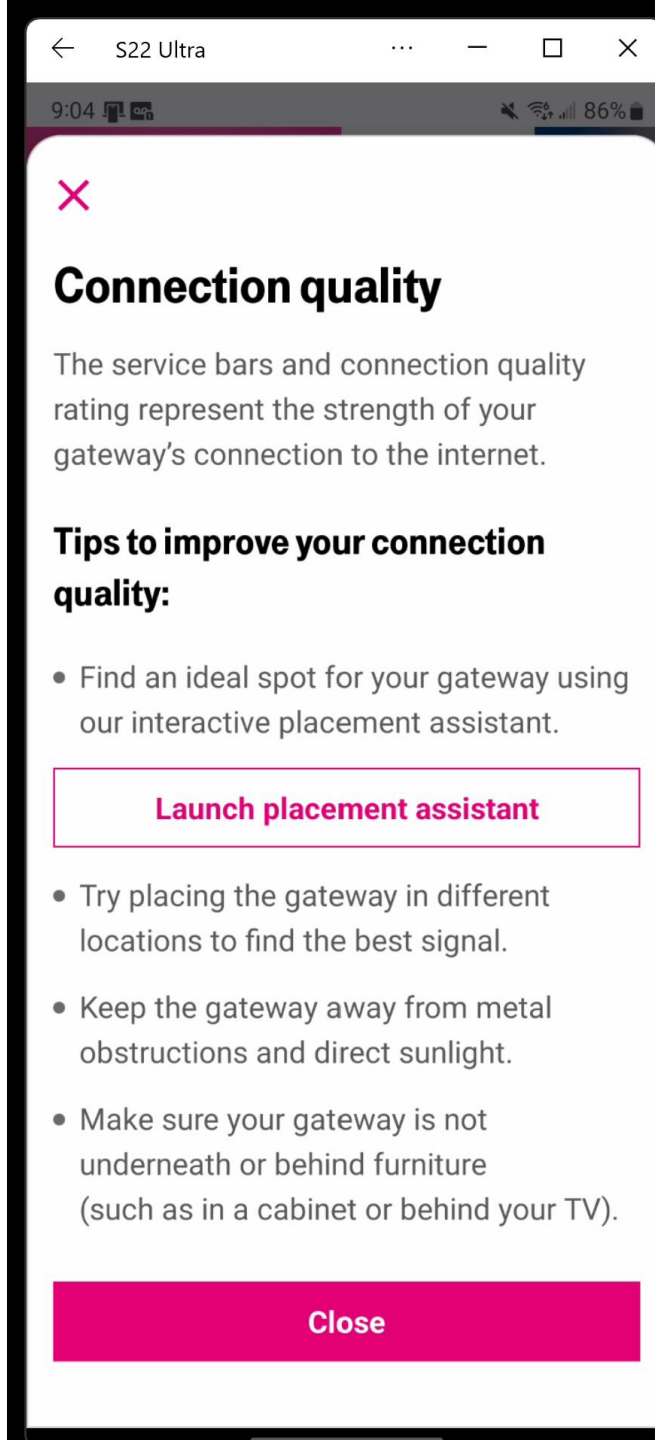

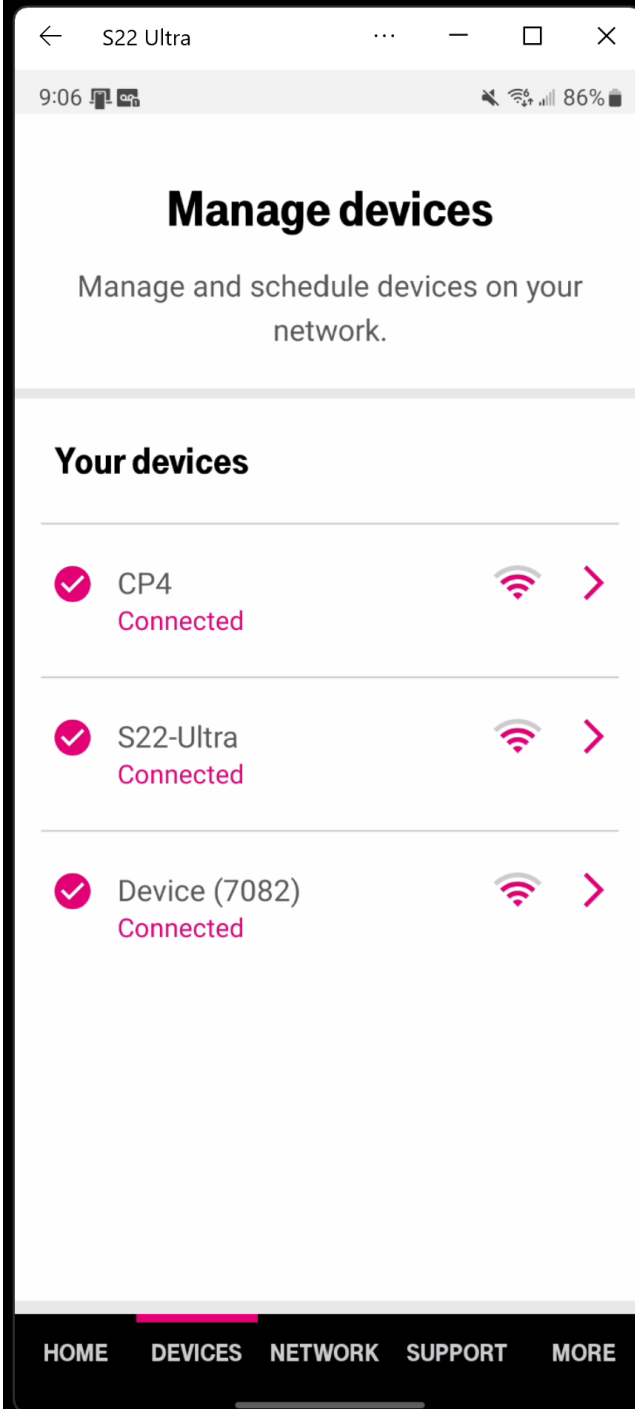

USING THE "T-MOBILE INTERNET" APP (continued)

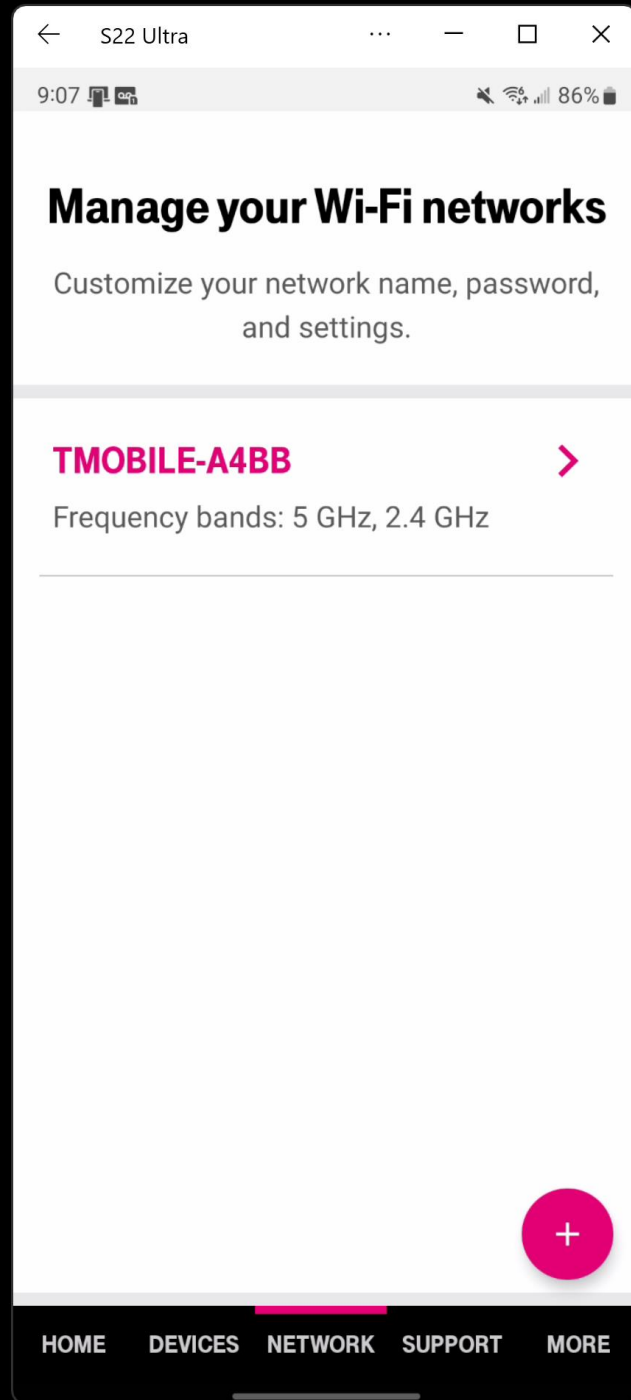

- Tap on "Log in":

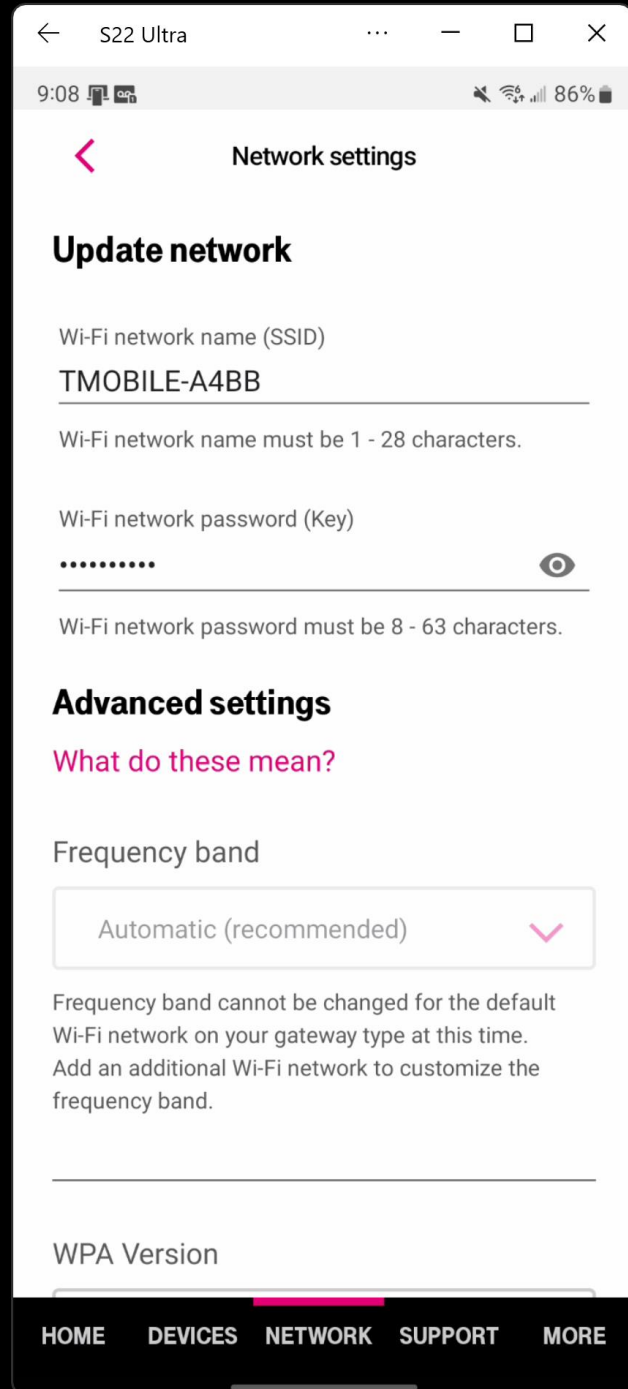

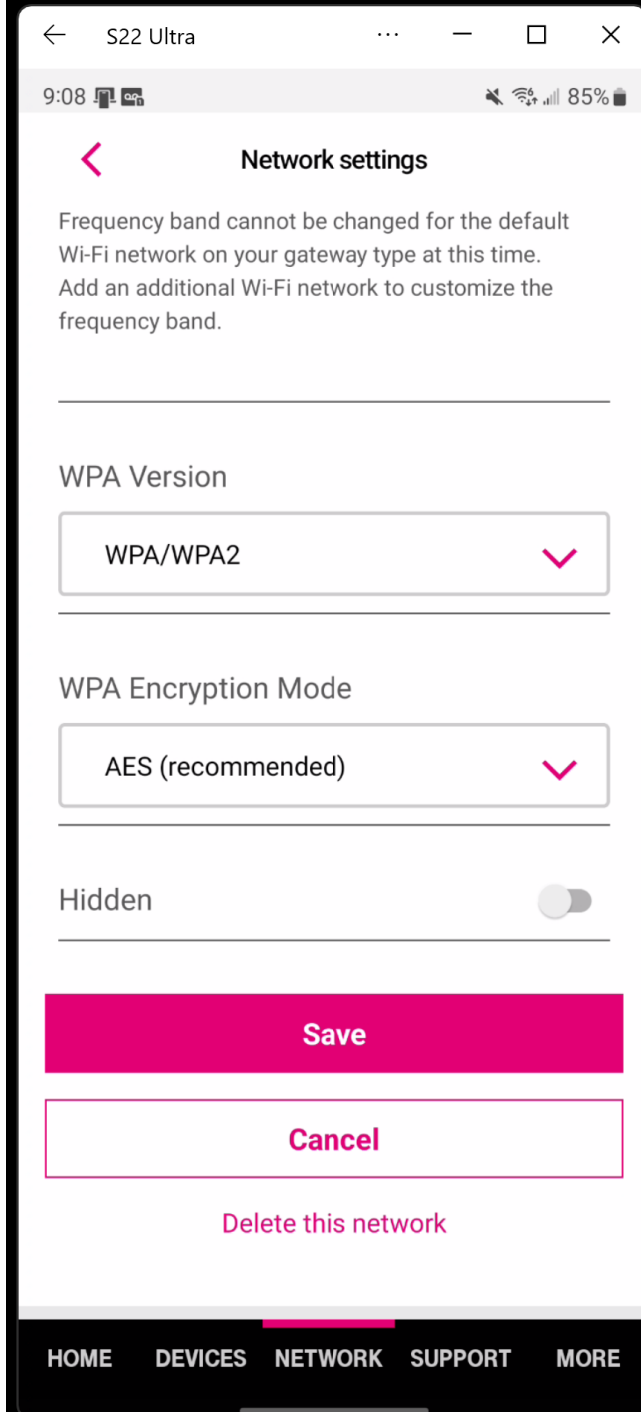

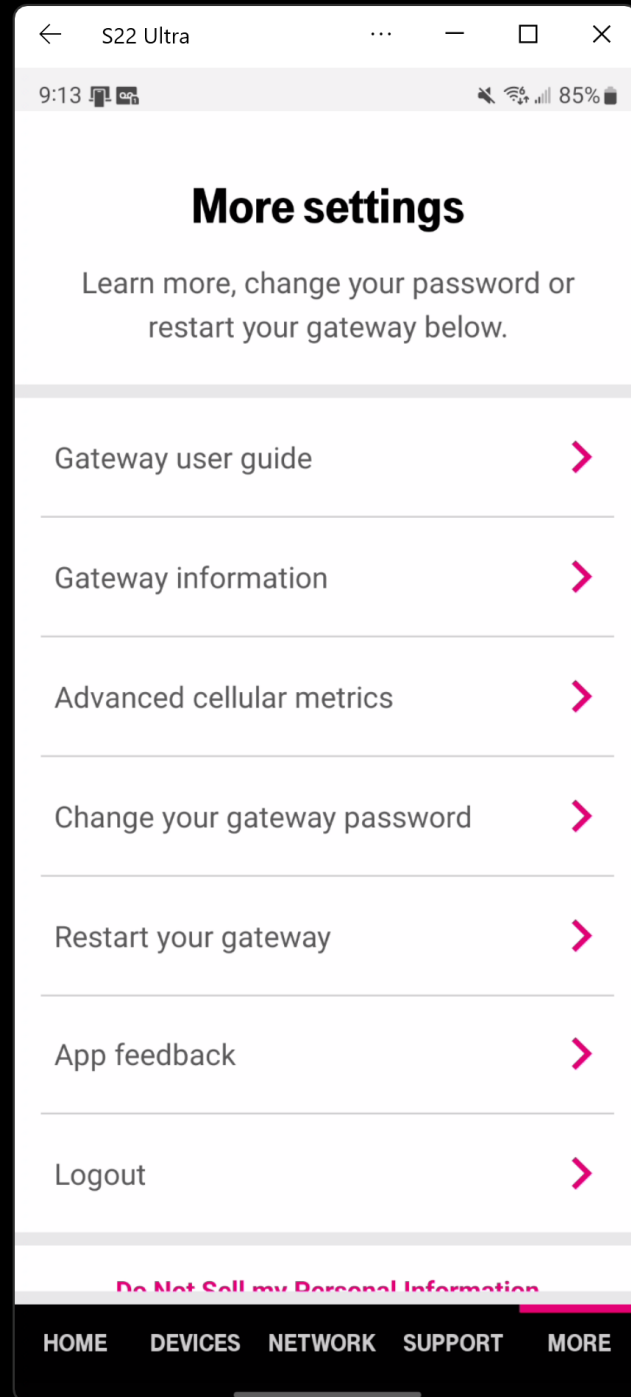

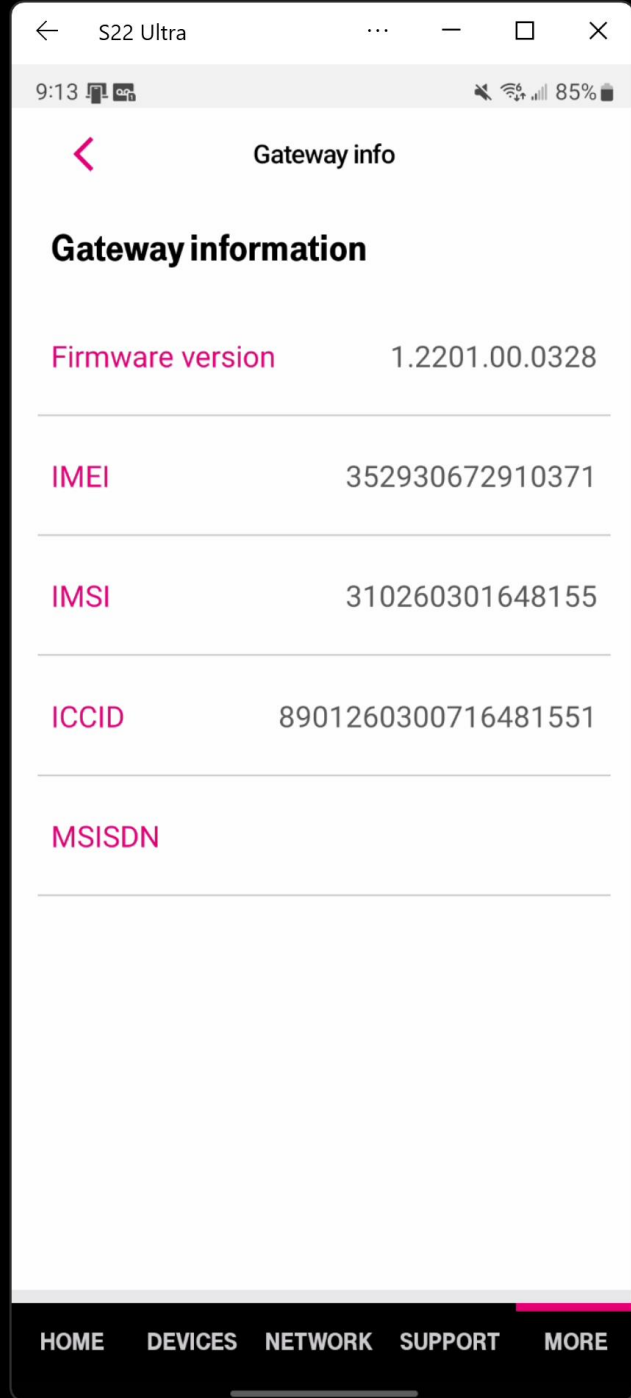

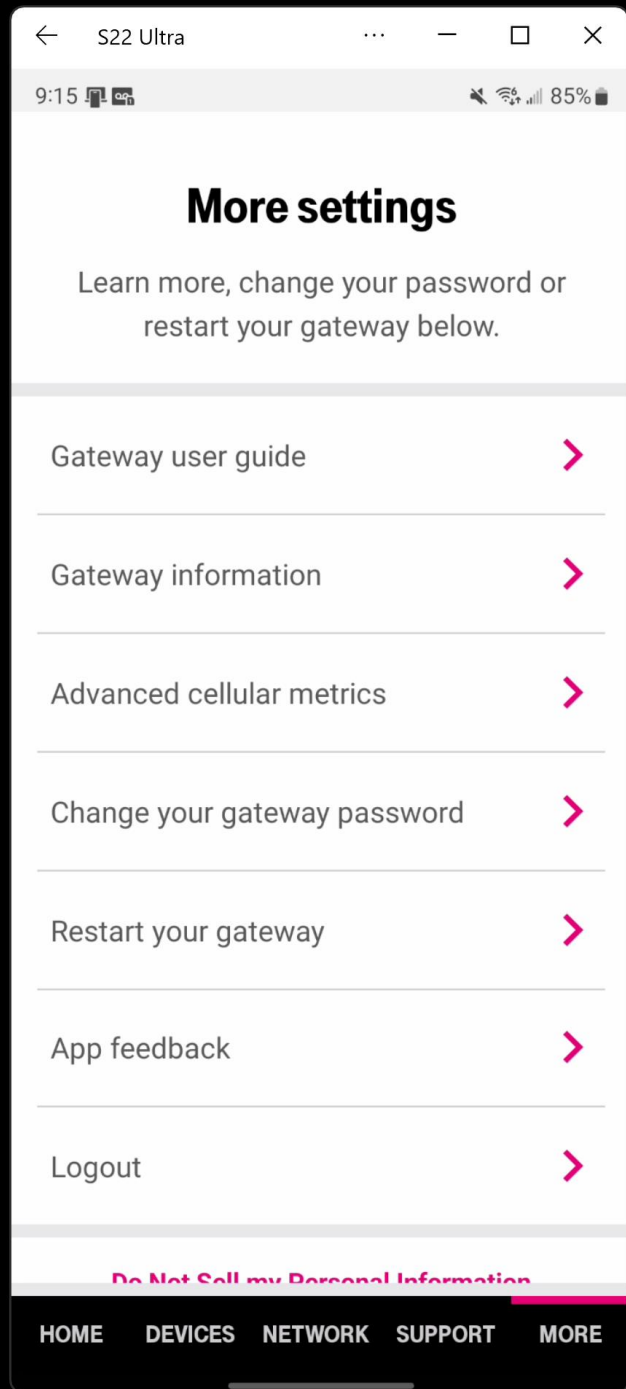

Gateway information

USING THE "T-MOBILE INTERNET" APP (continued)

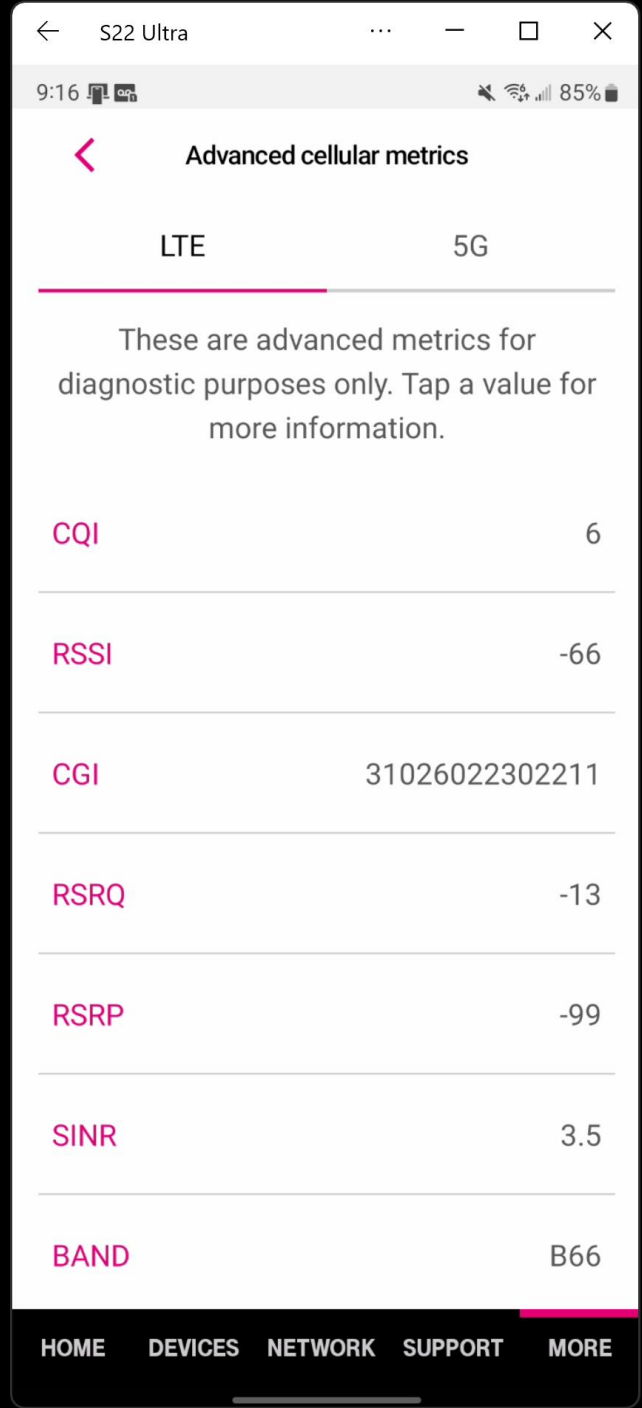

- Tap on "Advanced cellular metrics":

Advanced cellular metrics

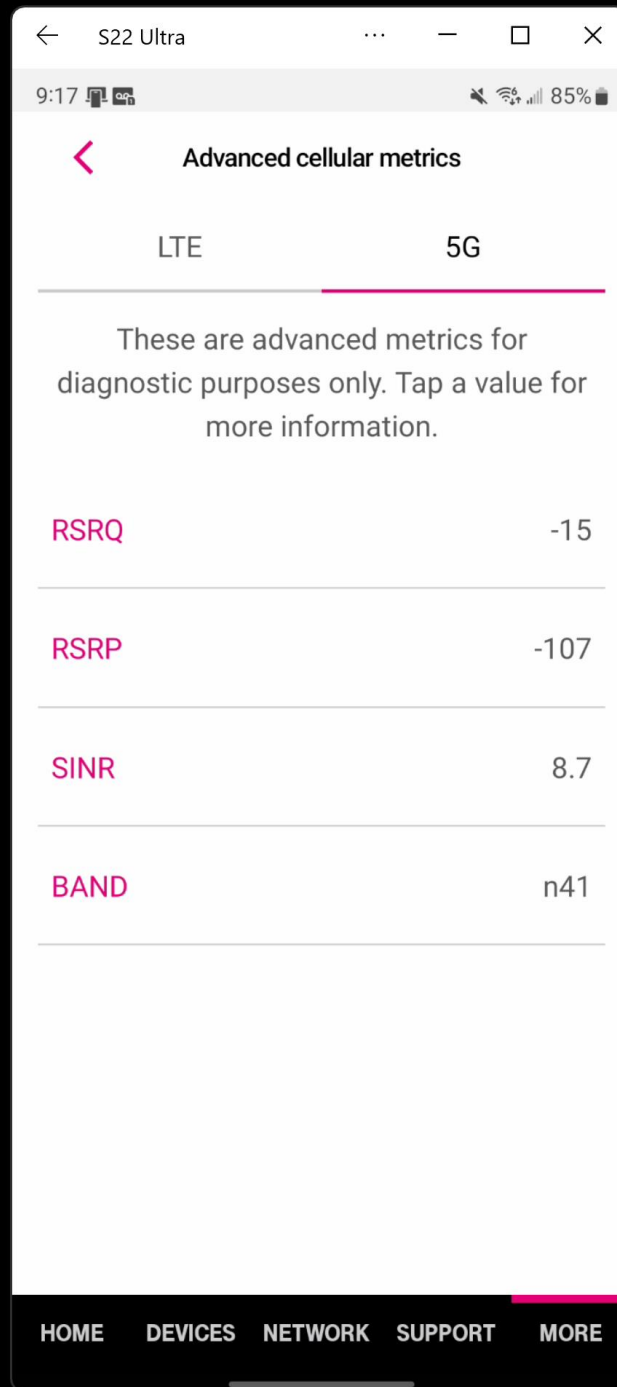

USING THE "T-MOBILE INTERNET" APP (continued)

- Now you will see two tabs:
An "LTE" tab
and a
"5G" tab:
This is because 99 percent of
T-Mobile is running at
"New Radio--Non-Standalone"
mode:

USING THE "T-MOBILE INTERNET" APP (continued)

- T

USING THE "T-MOBILE INTERNET" APP (continued)

- Use the right mouse button to click on the Windows Start button
- Use the left mouse button to click on "Terminal (Admin)"
- Type in
ipconfig
- Depress the Enter button of the keyboard

```
PS C:\Users\testuser> ipconfig
```
