SUMMARY

You can send print jobs from a cell phone to a local printer.

TOPICS

- PRINTING FROM AN iPHONE
- PRINTING FROM AN ANDROID PHONE
- ADDITIONAL INFORMATION

PRINTING FROM AN iPHONE

- To print from an iPhone to any printer:
  The printer must have "Airprint" capability

- The printer must be connected to a Wi-Fi router (via Wi-Fi or Ethernet)

- The Wi-Fi router does not have to be connected to the Internet

PRINTING FROM AN iPHONE (continued)

- The iPhone (or "iPad") must be connected by means of Wi-Fi to the same Wi-Fi router that the printer is connected to

- The printer will not be found inside "Settings" in the iPhone but that is okay

PRINTING FROM AN iPHONE (continued)

- From inside the "App" inside the iPhone:
tap on "Share",
swipe up to scroll down to "Print",
tap on "Print",
make sure that the correct printer is selected,
finally tap on "Print"

PRINTING FROM AN iPHONE (continued)
