8	Technology Always Seems to b...	256x144 144P	video/mn4	22.17 MB

☐ Don't ask again

Download (17)

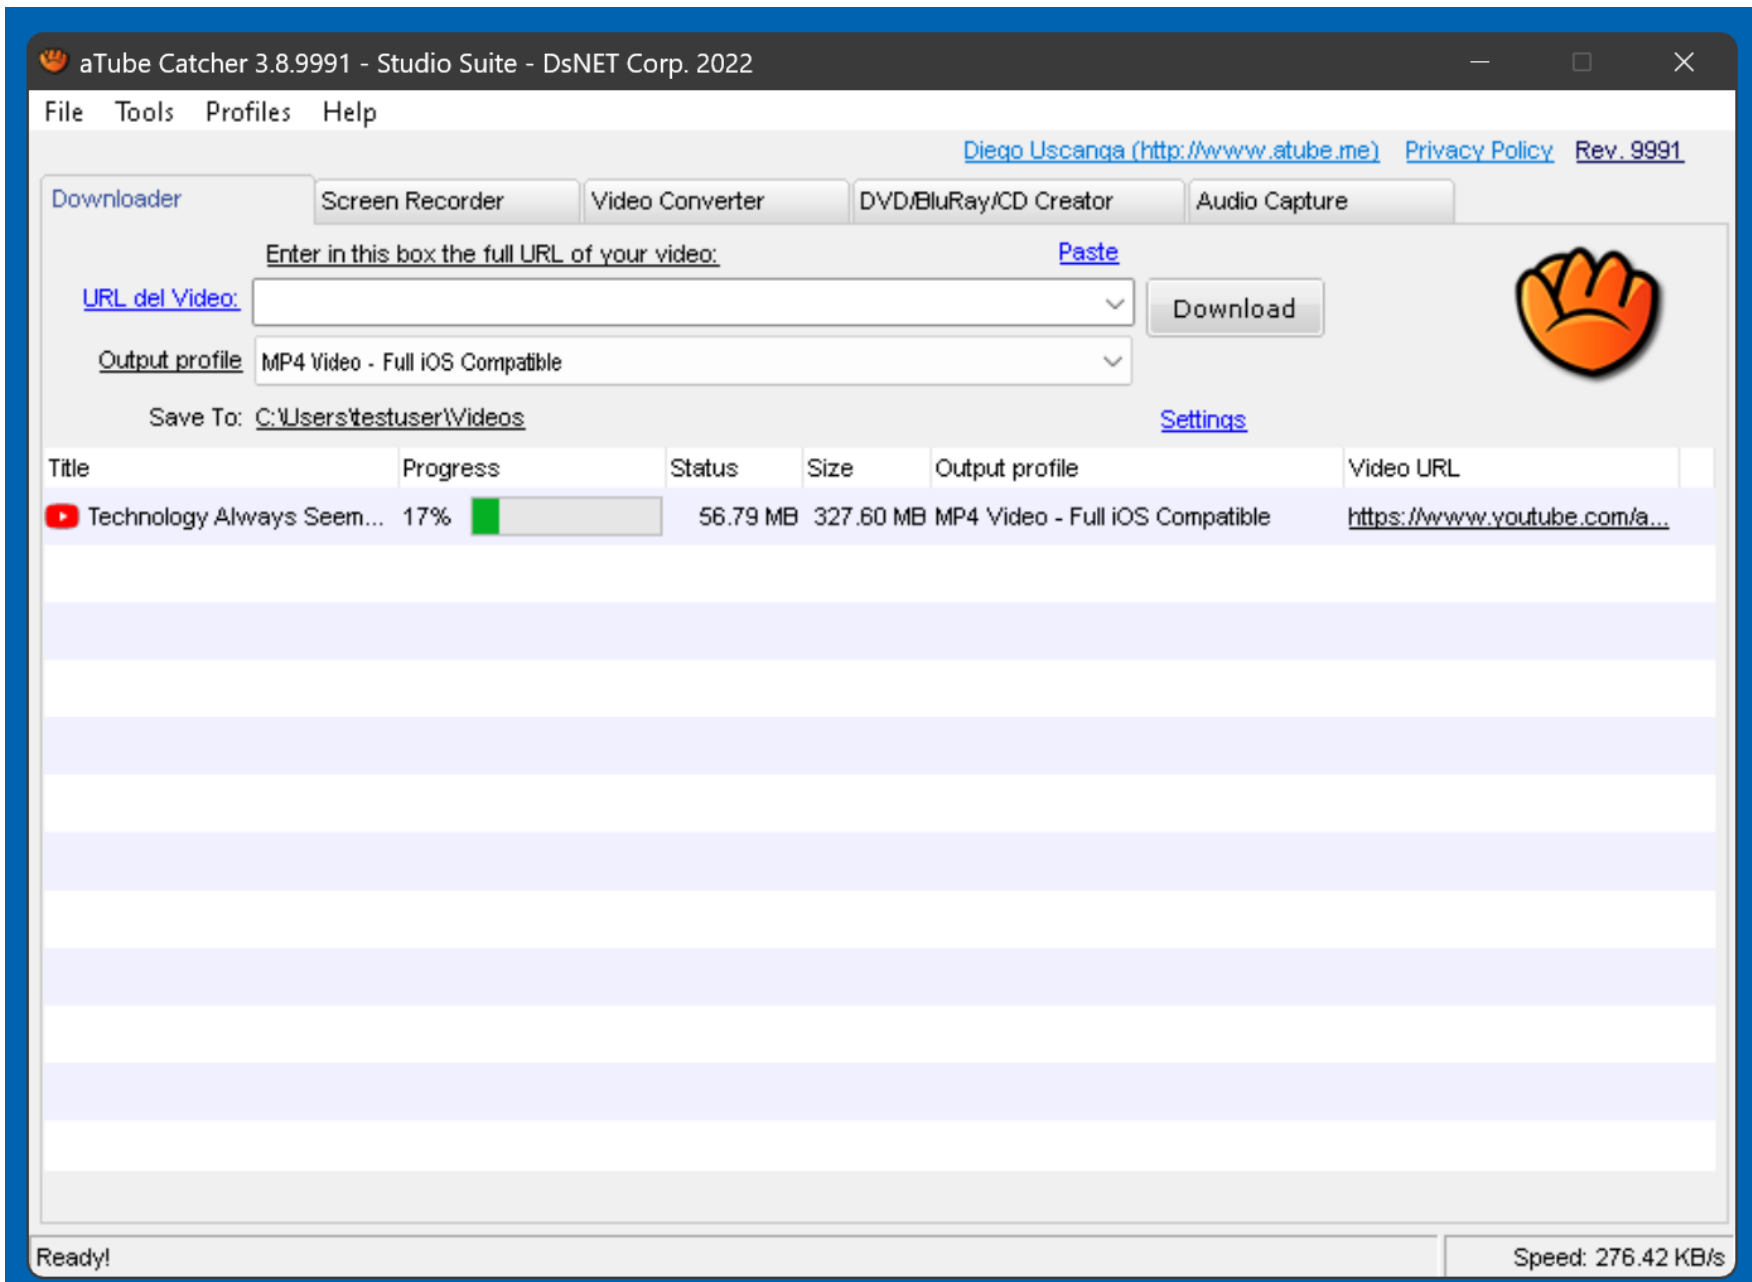

**i Tip**  
If you don't know what source format choose, simply click download again.  
Remember, the bigger the file size is, more time will be required to download.

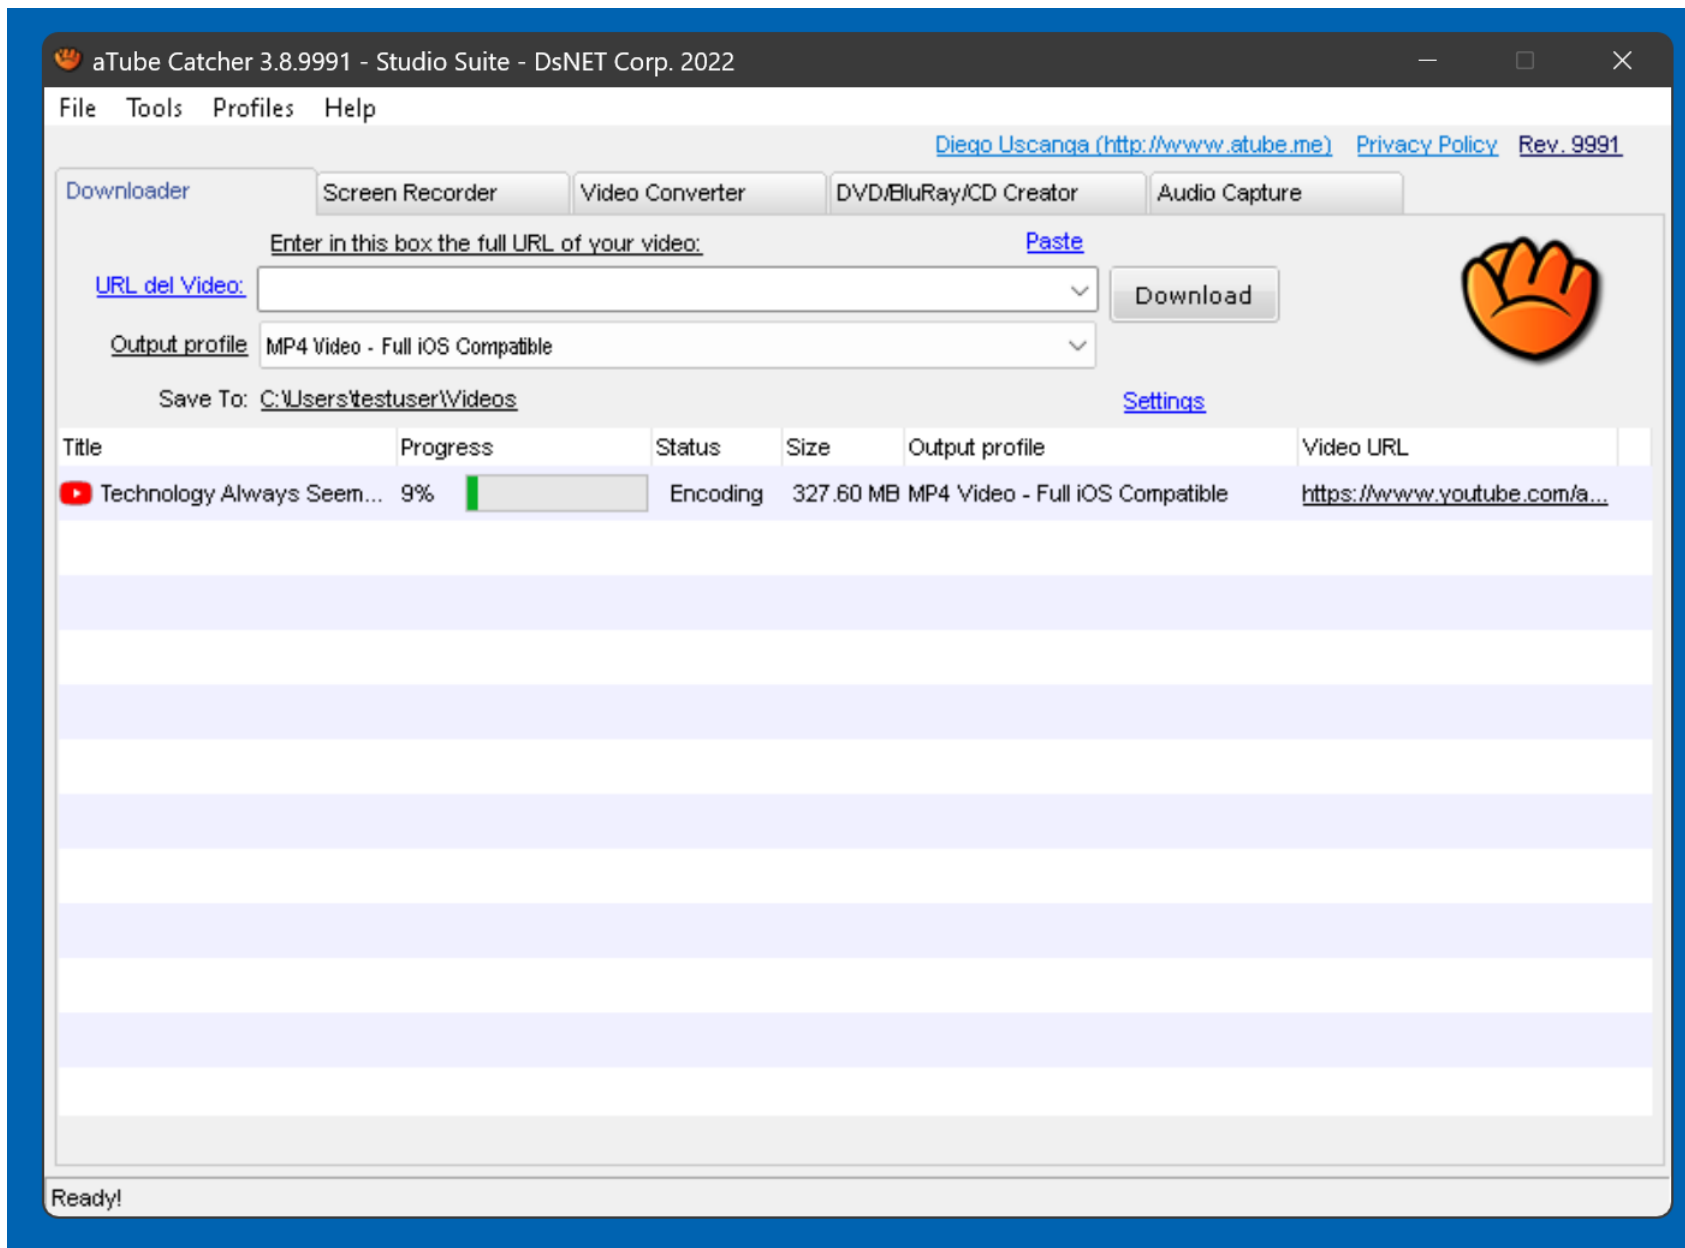

## USING "aTube Catcher" (continued)

- "aTube Catcher" will perform a "media capture at the network stack" on the media file:

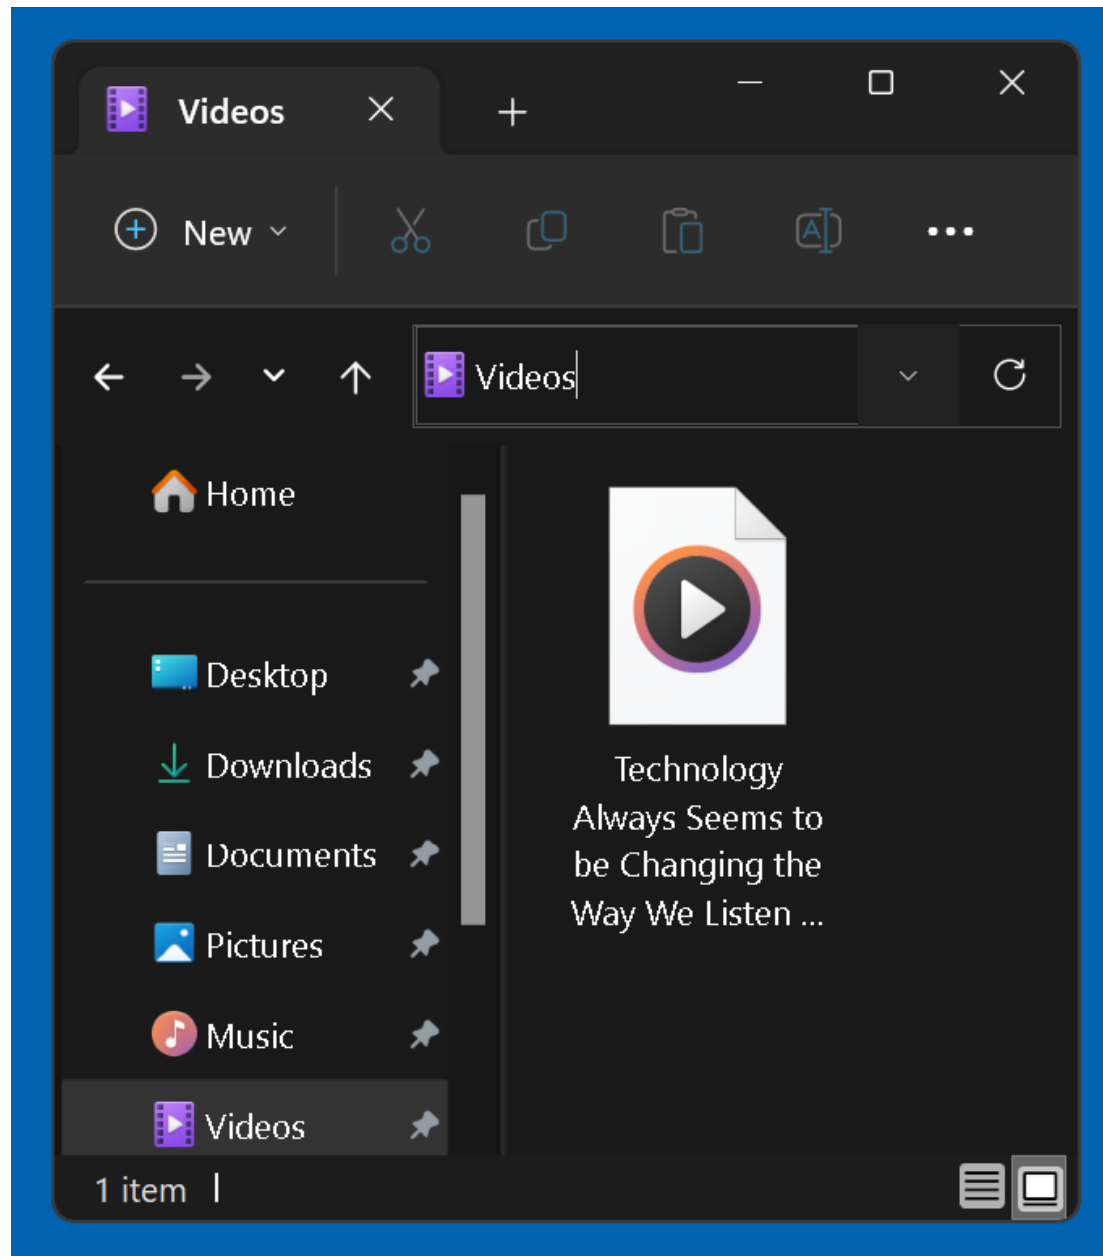

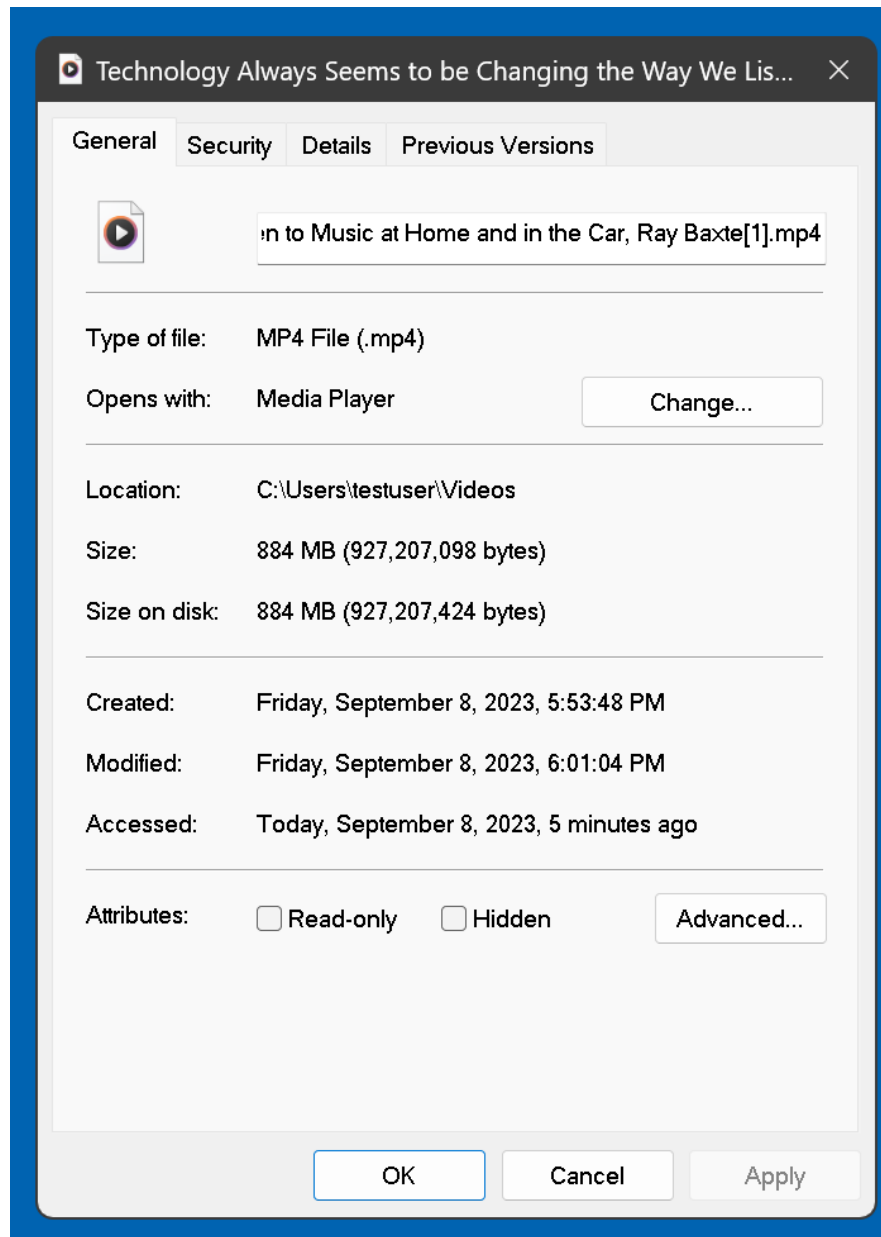

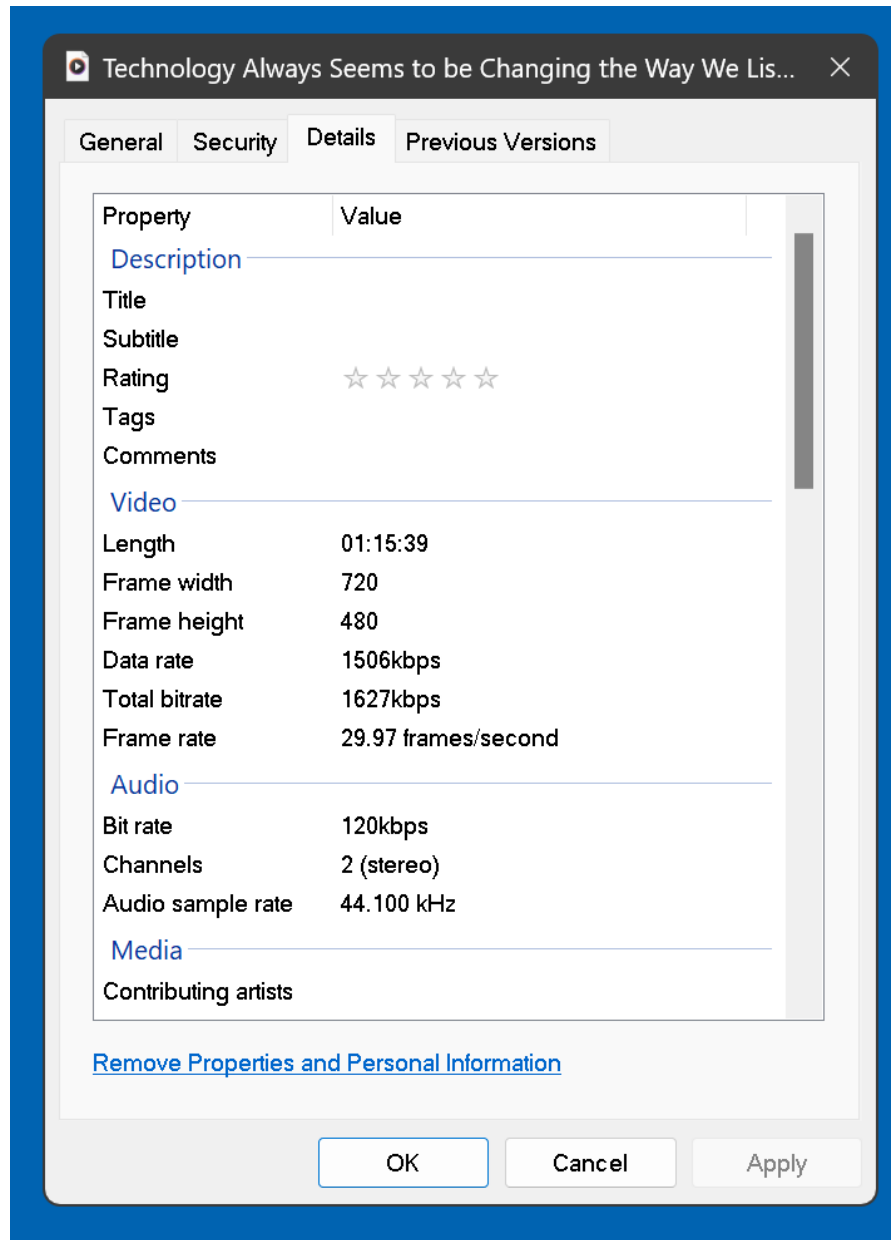

## USING "aTube Catcher" (continued)

- In our example, the "media captured" MP4 file has been stored in the default location at C:\Users\<Windows user name>\Videos\

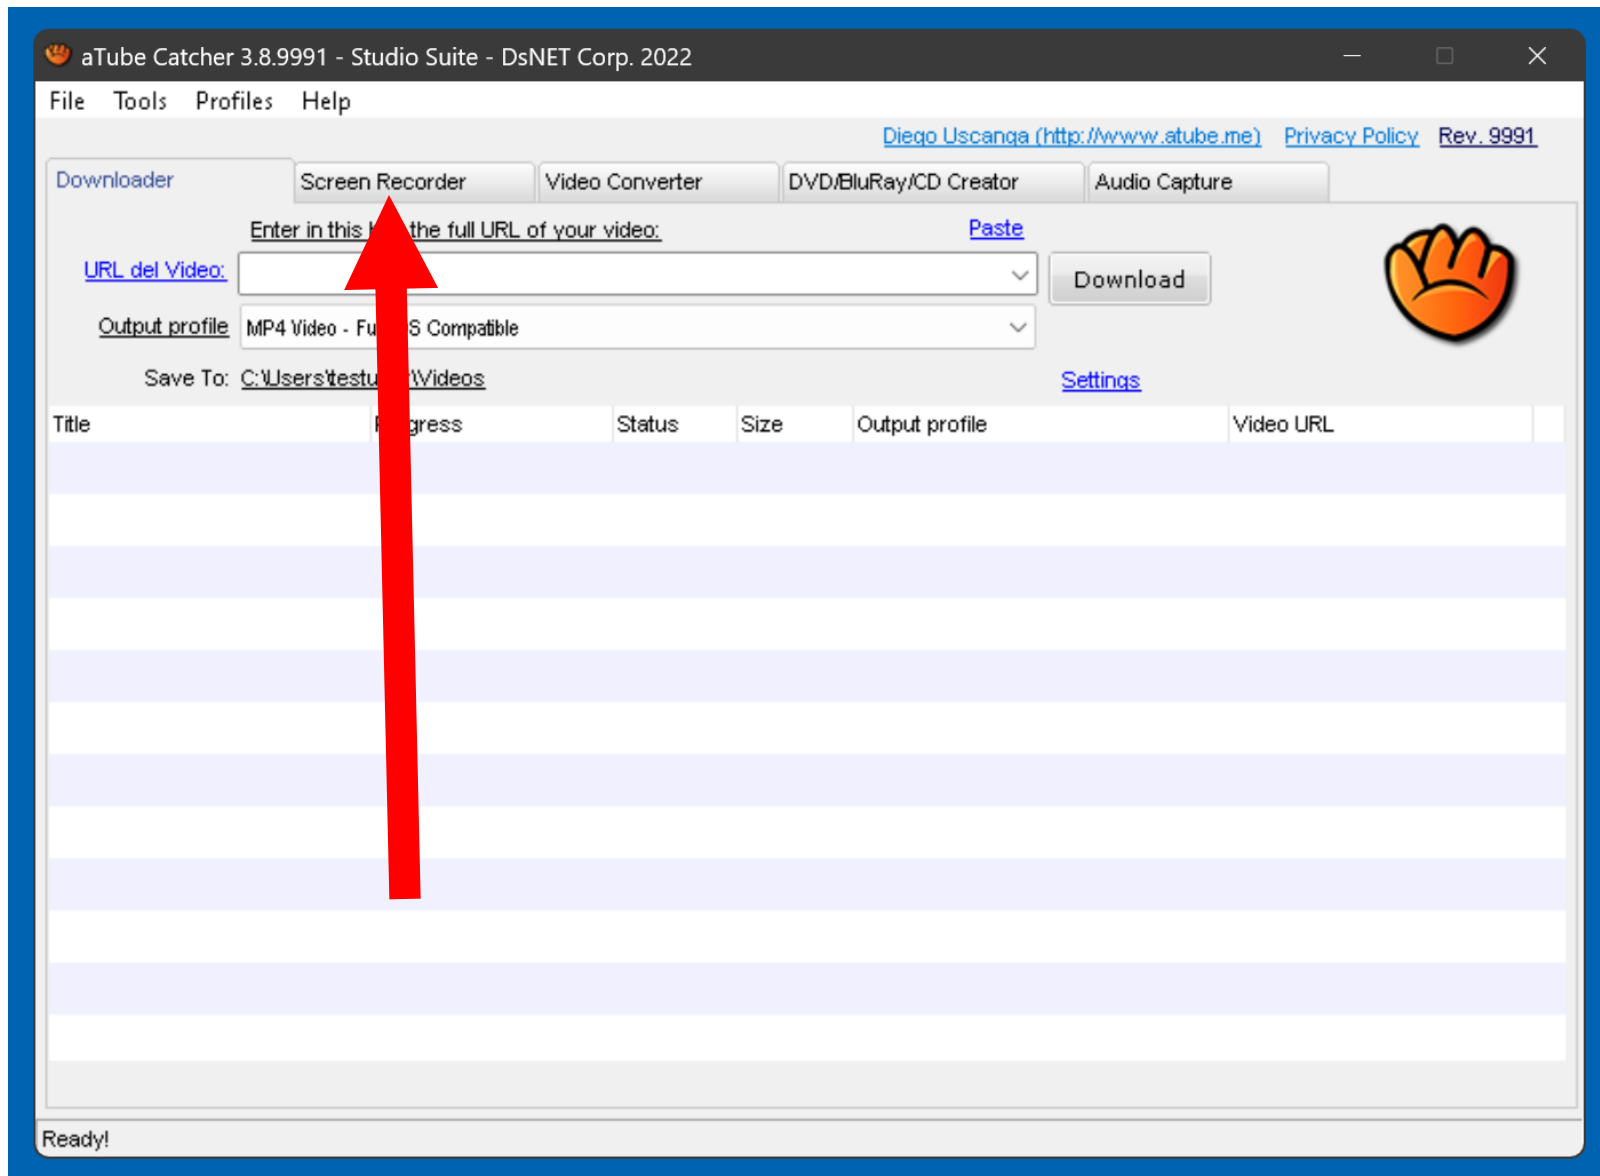

## USING "aTube Catcher" (continued)

- If the "Downloader" tab is unable to download a streaming video from the network stack, you can use the "Screen Recorder" tab to record the video at the "Graphics Interface" instead:
