This is a compact product with three significant advantages.

First, it will dry any type hair very quickly, in fact, in half the time of other dryers.

Second, while the price may be higher than more common brands, it is reasonable for what it does.

Third, it works at significantly reduced noise.

It is lightweight and compact so as to fit in a regular handbag or suitcase

The price is \$170 at [laifentech.com](https://www.laifentech.com)
